Open-i Advisors

In order to pursue goals and realize strategy, a company's operational structure must be able to efficiently support the activities of the organization.

Following a function-over-form approach to organizational structure, **Open-i Advisors** guides companies in **building a business architecture** that defines how processes, organization structure, competencies, metrics and infrastructure need to be **structured and integrated** to support organizational goals. Whether those goals are bringing a new product to market, opening up new channels of business or better supporting the current customer base, **optimal operational architecture is key**.
